Saluting Sistas Who Succeed

Women have truly come a long way. There was a time when women couldn't vote, own property, join the military, or even wear pants. But times are changing and women are breaking the glass ceiling each and every day.

We have seen Black women accomplish many firsts; from Madam C.J. Walker, first Black woman to be a self-made millionaire to Ella Fitzgerald, the first Black woman to win a Grammy, we were trailblazers paving the way for others to dream big, and many did just that. Sistas like The Honorable Kamala Harris, the first woman and the first Black vice president of the United States; and The Honorable Ketanji Brown Jackson, the first Black woman United States Supreme Court Justice, have not only achieved tremendous success, they have forever shattered the glass ceiling in our nation.

Let's continue to honor and uplift women everywhere and pay homage to those who have made it possible for us to be here today. As we recognize National Women's History Month, Black PR Wire will also feature and honor "Sistas Who Succeed!" If you have a sista in your organization to recognize, be sure to send it to us at newsroom@blackprwire.com.

March is National Nutrition Month

March is National Nutrition Month®! Established by the Academy of Nutrition and Dietetics in 1973, National Nutrition Month promotes a healthy, balanced lifestyle and encourages healthy habits to benefit individuals and families alike. This year's theme, "Fuel for the Future," encourages us to eat with sustainability in mind as a way to nourish ourselves during every phase of life, while protecting the environment.

Eating healthy is the key to getting proper nutrition. It improves our physical health, boosts our energy and helps us keep our weight in check. The benefits of eating healthfully can add up over time. Some easy ways to fuel for the future include: buying in-season and locally, eating more plant-based foods, and planning your grocery list. You'll enjoy healthier, more nutritious meals and be kinder to the environment and your pocket.

It's never too early or too late to eat healthfully! We can fuel the future for ourselves and our planet with a few minor adjustments. To get additional food and nutrition information, visit eatright.org.
